Question	
Survey Metadata	
Building ID	
Typology Selected	
Surveyor Name	
Date Submitted	
identification & location	
Survey Date	
District / Tehsil	
Village / Locality	
GPS Coordinates	
Building is constructed on (select all that apply)	
Surrounded by adjacent buildings?	
Exposed to natural hazards? (Select all that apply)	
Construction period relative to 2005 Kashmir Earthquake:	
Current Use of the building:	
Estimated Construction Age:	
Occupancy Status:	
Plan Information	
Total covered area [sq ft]	
Plan Shape	
Plan Sketch	
Non-structural elements	
Does the building have a parapet wall?	
Parapet Wall Height (ft)	
Parapet Wall Thickness (inches)	
Parapet Wall Material	
Does the building have a boundary wall?	
Foundation & Plinth	

Foundation Type:	
Foundation Material:	
Foundation Depth below Ground Level [ft]:	
Foundation Width (at base) [inches]:	
Foundation Condition:	
Plinth / Base Material:	
Plinth Height Above Ground Level [inches]:	
Damp Proof Course (DPC) Present?	
DPC Material	
DPC Thickness (inches)	
Foundation Soil Type	
Slope / Drainage around Building	
Is foundation exposed / vulnerable to erosion?	
Describe the Exposure or Vulnerability	
Remarks on foundation:	
Past Interventions & Damages	
Has the building undergone any past intervention/repair?	
Please Specify	
Observed Damage Type(s): (Select all that apply)	
Remarks	
General Remarks:	

RC Confined Stone Masonry	
No. of storey	
Ground storey height(ft)	
First storey height(ft)	
Type of stone	
Construction material availability	
Construction material distance(km)	
Maximum stone size	
Maximum stone size (other)(in)	
Type of mortar	
Through stone	
Through stone typical spacing	
External Wall(in) Thickness	
External Wall Thickness(in) - specific	
Internal Wall Thickness(in)	
Internal Wall Thickness(in) - specific	
Typical size of window - Length (ft)	
Typical size of window - Height (ft)	
Typical size of door - Length (ft)	
Typical size of door - Height (ft)	
Opening alignment in vertical direction	
Connection between stone masonry wall and vertical confining column	
Vertical confining element/column size - Width (in)	
Vertical confining element/column size - Depth (in)	
Location of vertical confining element/column	
Maximum spacing of vertical confining elements(ft)	
Vertical confining elements at openings	
Vertical confining elements at openings size - Width (in)	
Vertical confining elements at openings size - Depth (in)	
Horizontal Plinth bands/beams	

Horizontal Plinth bands/beams - Width(in)	
Horizontal Plinth bands/beams - Depth(in)	
Horizontal Lintel bands/beams	
Horizontal Lintel bands/beams - Width(in)	
Horizontal Lintel bands/beams - Depth(in)	
Horizontal Roof/floor bands/beams	
Horizontal Roof/floor bands/beams - Width(in)	
Horizontal Roof/floor bands/beams - Depth(in)	
Horizontal Sill bands/beams	
Horizontal Sill bands/beams - Width(in)	
Horizontal Sill bands/beams - Depth(in)	
Verandah column	
Verandah column size - Width (in)	
Verandah column size - Depth (in)	
Type of floor	
Type of floor - other	
Connection of floor to wall	
Connection of floor to wall - other	
Type of roof	
Type of roof - other	
Connection of roof to wall	
Connection of roof to wall - other
